NORTHWEST TERRITORIES, CANADA · SEPTEMBER 2025 · 8 DAYS & 7 NIGHTS

Get ready to see the most spectacular show on earth. Join us on this trip of a lifetime to watch the Aurora Borealis from our private island in Canada's Northwest Territories.

Aurora Island is the most unique and ideal place to watch the Northern Lights. With pristine waters surrounding our island, the Auroras reflect incredibly. September is the perfect time of year for comfortable viewing.

Temperatures are mild, there are few bugs or flies, and the lights shine wildly, even during the blue hour at dusk. Aurora Island and Yellowknife are geographically situated in the part of the world where this phenomenon is most visible.

THE BEST PLACE FOR

NORTHERN LIGHTS

EXPLORE THE LAND FROM A HAVILAND BEAVER FLOATPLANE & CANOE TO SECRET ISLANDS!

Kick out to canoe on the most placid of lakes, enjoy Yellowknife's sumptuous dining spots, get an intricate look at the northern way of life.

UNIQUE OFF-THE-GRID CAMPING SPOTS ON SECLUDED ISLANDS WHERE FEW HAVE BEEN.

This one week adventure to the Northwest Territories includes 5-days on our remote wilderness island.

The Northwest Territories are one of the top places in the world to watch the Northern Lights. Unlike other northern destinations, the sea is far away, therefore it is a very arid area in general. What does this have to do with seeing the lights? The less humidity in the air, the more crisp and clear the nights. There are rarely continuous days of cloud coverage, which allows for open views of the skies. Each time we have spent one month and saw the lights on average 23 out of the 30 days!
